

The 2nd East-Asia Microscopy Conference (EAMC2)

Successful

We have successfully completed the 2nd East-Asia Microscopy Conference (EAMC2) from November 24 -27, 2015. This meeting is the “SECOND” international meeting on microscopy in East Asia under the auspice of IFSM (International Federation of Societies for Microscopy) and CAPSM (Committee for Asia-Pacific Societies of Microscopy).

On behalf of the Organizing Committee of EAMC2, we would like to express our deep appreciation to the enormous efforts made by the Japanese Society of Microscopy (JSM), Chinese Electron Microscopy Society (CEMS), Korean Society of Microscopy (KSM) and Microscopy Society of Taiwan (MST). We also acknowledge gratefully the support for the exhibition of microscope manufacture companies such as JEOL, Hitachi, FEI, and so many others from the world. Finally, we would also express our thanks all of participants and cooperative organizations in Himeji. It would be difficult to make the EAMC2 fruitful without the active participation of those who concerned.

We summarized the results as follows:

(1)The status of the “second” EAMC, held in Himeji, Japan

Based on the results of the previous meeting of EAMC1 in Chongqing, China, it is important to point out the successful continuity of the EAMC under the joint operation by four societies of China, Japan, Korea and Taiwan, which are major sectors of CAPSM and IFSM in East Asia. Secondly, “Himeji in November” is definitely the right choice for all of participants because of the location of the city and the season of autumn leaves.

(2)Number of papers and participants of EAMC2

The number of participants is more than 330 and the papers is 275. It is obvious that the number of the participants and the papers submitted is greatly increased, particularly for the poster session and probably due to young scientists presenting their recent results. The cooperation of microscopy companies results in the Exhibition and Luncheon Seminars with full varieties of scientific fields of sample preparation to data analysis.

Scientific discussion among academics, students and companies were carried out with the fruitful results in microscopy. We are going to organize the Third East-Asia Microscopy Conference (EAMC3) in 2017 in KOREA.

Hope to see you at the EAMC3 on November 7 (Tue) – 10 (Fri) in 2017 at BEXCO in Busan, KOREA !!

Results of the 2nd East-Asia Microscopy Conference (EAMC2)

1. Conference: The 2nd East-Asia Microscopy Conference (EAMC2)
2. Date: November 24 – 27, 2015
3. Venue: The Himeji Chamber of Commerce and Industry (HCCI), Himeji, Hyogo, Japan
4. Organizers: Japanese Society of Microscopy (JSM)
Chinese Electron Microscopy Society (CEMS)
Korean Society of Microscopy (KSM)
Microscopy Society of Taiwan (MST)

5. Results:

5.1 The numbers and distribution of the participants

	JSM	CEMS	KSM	MST	Others	Total
Regular	165	20	24	18	15	242
Students	29	14	25	19	1	88
Total	194	34	49	37	16	330

5.2 The number of presentations

Oral	139
------	-----

Posters	136
---------	-----

5.3 The distribution for the oral presentations in scientific sessions

Sessions	Numbers
P1: Plenary Lectures	4
A1: Advanced Development in Instrumentation	5
B1-1: Advanced Techniques (TEM/SEM)	17
B1-2: In-Situ (TEM/SEM)	25
B1-3: SEM (includes FIB/SEM)	11
B1-4: X-ray Microscopy	5
B2-1: Nano-materials	15
B2-2: Structural Materials	12
C1: Histology and Cell Biology	5
C2: Biology of Plants and Microorganisms	5
C3: 3-dimensional Electron Microscopy	5
C4: Super-resolved Fluorescence Microscopy	4
C5: Molecular Labeling	4
C6: Connectmics	4

5.4 The distribution for the poster presentations in scientific sessions

Sessions	Numbers
PB1-1: Advanced Techniques (TEM/SEM)	15
PB1-2: In-Situ (TEM/SEM)	15
PB1-3: SEM (includes FIB/SEM)	9
PB2-1: Nano-materials	11
PB2-2: Structural Materials	18
PB2-3: Functional Materials	20
PC1: Molecular Biology	2
PC2: Cell Biology (Animal)	7
PC3: Cell Biology (Plant and Microorganism)	15
PC4: Histology (Animal)	10
PC5: Histology (Plant and Microorganism)	3
PC6: Methods, Techniques, and Others	11

5.5 Luncheon Seminars and Workshops

Luncheon Seminars	8
Workshops	2

5.6 Exhibitors and Sponsors of companies

Exhibitors	22
Sponsors	34
