

Advanced Imaging and Analysis at Nanoscale

2nd Canada - Japan Microscopy Societies Symposium 2021

A virtual meeting.

November 15 – 17 (Canada) = November 16 – 18 (日本)

MSC·SMC
Promoting microscopy since 1972

HITACHI
Inspire the Next

Abstract deadline: Sept 17, 2021

Registration is FREE for JSM and MSC members.

New developments in instrumentation, improved understanding of fundamental limits of electron and ion microscopy and new tools and methods in data processing and their applications are welcome.

Keynote speakers:

Prof. **Ray Egerton**, University of Alberta, Canada

What Determines the Spatial Resolution in Microscopy?

Prof. **Yuichi Ikuhara**, University of Tokyo, Japan

Atomic-Scale Dynamic Observations of Interface, Surface and Grain Boundary Phenomena

Prof. **Maureen Lagos**, McMaster University, Canada

Phonon spectroscopy and Imaging at the Nanoscale

Organizers: Canada (カナダ): Marek Malac, Misa Hayashida, Alan Maigné,
日本 (Japan): 森 茂生 (Mori Shigeo), 原田 研 (Harada Ken)
