

IMC20 Satellite Symposium

7-8 September 2023,
Kyushu University,
Fukuoka

Key Dates:

Abstract Submission Deadline
by 31 May 2023

Abstract Acceptance Notice
by 7 June 2023

Registration Deadline
By 7 July 2023

Prospects of Multidimensional Materials Characterization

In view of the IMC20 to be held in Busan in September 2023, we would like to take this opportunity to welcome prominent several foreign researchers and have lectures, panel discussion, in order to deepen our friendship through face-to-face communication. This symposium focuses on prospects of multidimensional materials characterization by SEM, XRD and others as well as TEM, activated by invited experts as well as local organizers.

REGISTRATION

(STUDENTS: FREE) Snacks included

Registration Fee: 7000 JPY

Please scan the QR code or register from the following URL.

IMC20 Satellite Symposium at
Fukuoka

Program at glance

7 Sep 13:00-17:00

"3D Imaging in the TEM and SEM"

Ray Egerton (University of Alberta)

"Static and Dynamic Behaviors of Polymer Nanostructures studied by Advanced Transmission Electron Microscopy"

Hiroshi Jinnai (Tohoku University)

"Basis and applications of a novel tomographic reconstruction method QURT"

Norio Baba (Kogakuin University)

"Scanning Electron Diffraction
– Recent Progress with Application to Soft and Beam-Sensitive Material"

Paul A. Midgley (Cambridge University)

"Local structure analysis of crystal interfaces using quantitative 4D-STEM"

Kenji Tsuda (Tohoku University)

Several Contributed Talks **(Now Recruiting!)**

8 Sep 9:00-18:00

Several Contributed Talks and 100 Posters **(Now Recruiting!)**

Banquet

Sight-Seeing Trip to Dazaifu Tenmangu and Kyushu National Museum (applicant only)

Venue

7 September Inamori Center, Ito Campus, Kyushu University

8 September Chikushi hall, Chikushi Campus, Kyushu University
